MMBCU 125CC FEATURES

Keyless Ignition

The Keyless Ignition feature on the SYM MMBCU 125 offers a number of advantages, providing enhanced convenience, security, and ease of use for riders.

USB Port

The USB Port on the SYM MMBCU125 is a practical and modern addition that enhances the scooter’s convenience, especially for tech-savvy riders or those who rely on mobile devices during their commutes

Under Seat Storage

The under-seat storage on the SYM MMBCU125 is a standout feature that enhances the practicality and convenience of this scooter, making it ideal for daily commuting or even short trips

Tailight

The tail light on the SYM MMBCU 125 is an important safety and design feature that contributes to the scooter's overall visibility and aesthetics

Speedometer

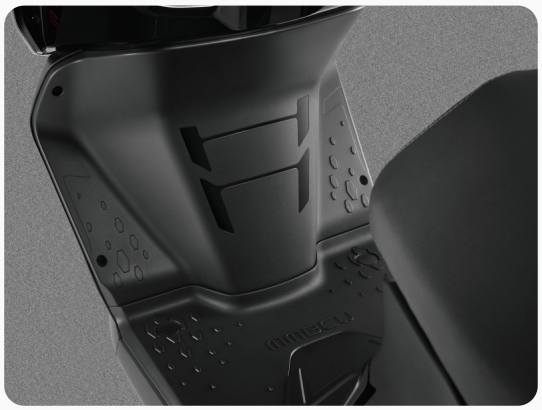
The speedometer on the SYM MMBCU 125 is an essential component of the scooter’s dashboard, offering riders the ability to monitor their speed accurately. The speedometer’s design and functionality not only contribute to rider convenience but also improve safety and overall riding experience

Full LED Headlight

The headlight on the SYM MMBCU 125 plays a crucial role in ensuring rider safety and visibility, especially during nighttime rides or in low-light conditions

Snake skin texture foot rest

The MMBCU is imprinted with mamba's biological markers with snake skin texture on the cockpit



Bio-inspired design language

Mamba, the fastest moving snake and the second longest snake in the world. It grows in various environments such as savannas, rocky hills and jungle areas. Like the mamba, MMBCU has the characteristics of high-speed movement. It is tuned to be a sports touring model that is more suitable for long-distance riding and owns good functionality.

Synthetic snake skin

The MMBCU is imprinted with mamba's biological markers; snake scale headlight, snake fang rear lights and synthetic snake scale on body covers
