Z500 SE FEATURES

Assist & Slipper Clutch

Kawasaki's Assist & Slipper Clutch results in a light clutch pull for even more rider-friendly and manageable riding in everyday situations, and reduced skipping and hopping from the rear for better sport riding and added confidence.

Latest-Design Z "Face"

The Z500's "face" is based around a newly designed triple headlight unit, enveloped by a sharp front cowl to give it an intense look.

Instrumentation with Smartphone Connectivity

Both the full LCD instrument panel on the standard models and the TFT display on the SE models offer smartphone connectivity, enabling riders to connect with their machines to enjoy display notifications, riding logs, and community features.

Ergonomics for Control

Relaxed rider triangle accommodates a wide range of rider sizes and riding situations, contributing to its rider friendly character. The relatively upright riding position and wide handlebar put the rider in the ideal position for active control, facilitating dynamic, sporty riding.
