Z900 FEATURES

IMU-Equipped Electronic Riding Support Technology

Kawasaki's highly sophisticated electronic management systems offer rider support to allow riders to more fully experience how the Z900 is fun and rewarding to control. IMU feedback adds greater precision to the ABS.

Light, Agile Handling

Key to the Z900's agile handling is a chassis composed of lightweight components, including its trellis frame. Revised suspension settings for the new model allow riders to enjoy sport riding with more confidence.

Electronic Cruise Control

With the push of button, riders are able to easily maintain a set speed, making highway cruising even more comfortable.

Metal Accents

Brushed aluminium side shrouds, plated parts around the key cylinder, and a metal ornament located above the seat featuring the Kawasaki logo are attractive accents that give the Z900 a high-quality, metallic look.

Fully-Loaded Supernaked

Complementing the Z900’s exciting engine and nimble handling performance, comfort-enhancing features like the highly informative large new display, voice command, and electronic cruise control enhance daily riding pleasure.

Sugomi Performance

Offering excitement that increases as the revs climb, sugomi performance ensures that riding the Z900 is a visceral experience. The crisp response of its In-Line Four engine is perfectly balanced by its light, agile handling. Exhilarating without being overly intimidating, the combination is simply sublime.
