ADDRESS 125 FEATURES

SPACIOUS STORAGE DESIGN

With a spacious design and capacity of 21.8 Litres, the under seat utility compartment can accommodate shopping bags, rain gear or other items. The inner pocket on the left front side is easy to access, even when sitting on the scooter, perfect for small items the rider may want to keep close at hand. A pair of sturdy hooks let you hang various types of bags with greater convenience. The back hook can be locked to better secure items and can be folded out of the way when not in use.

COMBINED BRAKE SYSYTEM

Suzuki's Combined Braking System supports well balanced braking by distributing braking force to both front and rear wheels when the left brake lever is operated. Stable stopping power is provided by a 190mm diameter disc on the front and a 120mm diameter drum brake in the rear

LIGHTWEIGHT FRAME

The product of repeated simulations that employed CAE technology, the under bone frame is built using large diameter, thin round material. Designed to minimise weight while maximising rigidity, this frame contributes to the Address 125's outstanding fuel efficiency. It also provides excellent straight line stability and positive cornering performance

PLUSH RIDE

The front suspension settings provide a smooth and comfortable ride, with the spring rate and the operation of the telescopic front forks optimised for the front wheel weight distribution of the Address 125. Both the forks and rear suspension are finely tuned to deliver solid road-holding performance, agile handling and a plush ride.

EASY TO HANDLE

The Address 125 uses a chassis designed for urban comfort and performance, featuring a kerb weight of just 105 kgs, it's designed to be easy to handle and highly manoeuvrable. Seat height and floorboard space are such that they suit a wide range of riders. Stability is excellent, with high ground clearance. The Address 125 proves its ability to excel in any riding situation

COMFORTABLE POSITION

The long dual seat affords both rider and pillion plenty of room. Designed to be comfortable and well-padded to smooth out even rougher roads it's carefully crafted shape makes it easy for the rider to plant both feet ground when stopped. The address is designed to offer ample ground clearance for leaning into corners and ably handling bumps in the road. Both long and wide, the floorboard is designed to provide plenty pf room for the rider to adjust the position of their feet and find a comfortable riding position, even when carrying a passenger.
